

Summary

I am a graduate in Data Science & AI from Thuy Loi University, currently working at Samsung R&D Center Vietnam. I have strong programming skills (Python, C/C++, HTML/CSS/JavaScript, Flutter) and solid problem-solving abilities from competitive programming.

I am passionate about teaching and mentoring, with experience in supporting classmates and junior students in coding practice. I am eager to contribute to MindX as a part-time teaching assistant/lecturer, bringing both technical knowledge and enthusiasm for guiding younger learners.

Portfolio / Personal Projects

Algorithmic Problem Solving

Competitive Programming

2022 – Now

- Solved algorithmic problems on LeetCode with a strong focus on **data structures** (arrays, trees, heaps, hash maps) and **graph algorithms** (Dijkstra, BFS/DFS, shortest path).
- Daily practice to maintain strong algorithmic thinking.

Mobile App for Math Center with Face Attendance

Graduation Project

2025
Thuy Loi University

- Built a student mobile app (Flutter) and backend APIs (Django REST) with AI-based face recognition for class attendance.
